
Master WoodCraft Cabinetry Guide to

Doors and Finishes

Master WoodCraft CABINETRY LLC™

Made Well • Made Sustainably • Made by Family • Made in USA

An acpi brand

Our Mission Statement: Perfection is our Goal.

Value

The perfect balance of style and quality, built to last well beyond the depreciation cycle of your property.

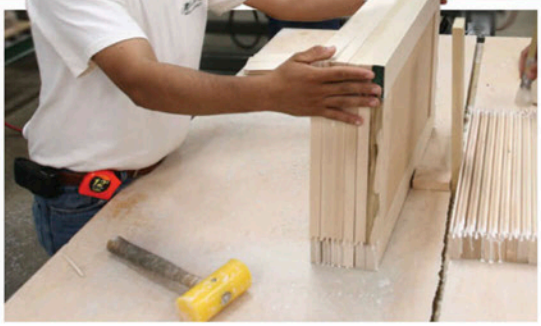
Employee and Customer Focused, Family and Community Oriented

Gene and Patsy Ponder began Master WoodCraft Cabinetry with a passion for people and a level of excellence that raises the bar for the industry. Our character and commitment to craftsmanship have created a workplace environment that truly cares for each other, our customers, and our community. We at Master WoodCraft Cabinetry simply don't want to make cabinets... we want to make a difference in lives.

- **We Care for Each Other** – We focus on a safe workplace environment with a yearly goal of no recordable accidents. Every member of our team participates in monthly profit sharing.
- **We Care for Our Customers** – We strive for long-term, mutually beneficial partnerships.
- **We Care for Our Community** – We have multiple community philanthropies including corporate partnerships with Pittsburg State University, Wiley College, and Texas State Technical College.
- **We Care for Our Country** – We make everything within our own walls and source all of our raw wood materials from America. We proudly print Made in USA.
- **We Care for the Planet** – As a founding member of KCMA's Environmental Stewardship Program, we ensure no waste goes to the landfill and we ensure all of our materials emit no VOCs or toxic gases.
- **We Care about our Product Performance** – We utilize higher quality materials, resulting in longer product life. We are vertically integrated, giving us control over our quality while allowing us the flexibility to be nimble and responsive to our partner's needs.

"*Quality People Produce Quality Products*" is more than just our tag line, it's the secret to our success.

Master WoodCraft Cabinetry craftsmen take pride in their high-quality work.



Crafting Excellence

Made Here. Made Well. Made Sustainably. Made by Family.

Crafted by dedicated employees, using raw materials sourced within the United States, our manufacturing plants in East Texas are staffed with craftsman who take pride in the cabinets and countertops they produce. We do this with one goal in mind; to produce high quality, low maintenance products that endure today's lifestyle.

We manufacture our cabinets using a vertically integrated approach that provides us total control over our quality as well as provides responsive service to our customers. This integration extends from the acquisition of raw materials through the Certificate of Occupancy.

- **Proudly Made in USA**
  - *Manufacturing facilities in Marshall & Jefferson, TX*
  - *Over 600,000 sq. ft. of manufacturing space*
  - *Over 300,000 sq. ft. of warehousing space*
- **All wood materials are 100% American sourced**
- **Raw materials are rough milled in-house and used to produce all of our drawer, door, frame, and cabinet components**
- **Water-based finishes and glue provide superior durability with zero VOC emissions. Our UV cured top finish top coat provides consistent finish and durability that will last for 20 years**
- **Vertically integrated laminate top shop**
- **Large fleet of company owned trucks ensures we maintain control of our partner's project**
- **Turnkey installation services ensure product installation and punch are under direct supervision of Master WoodCraft Cabinetry employees**

"Quality People Produce Quality Products"

It's more than a statement painted on a wall, it's a commitment echoed in every stage of cabinet and countertop manufacturing.

High-quality joinery and expert finishes are the hallmark of fine craftsmanship, and every cabinet is manufactured to meet strict durability requirements.

Turnkey delivery and installation services are available.

Design Flexibility

Specify with confidence.

Our vertical integration provides our partners the flexibility to choose the door styling and construction methodology they desire without fear of availability. We are the only multi-family cabinet company that will provide any door style on any construction methodology we offer. We will even consider special requests for finishes, designs, and functions.

Our customers can choose from framed or frameless cabinet construction, standard or full overlay door and drawer front construction, an immense selection of stains, paints, Thermofused Melamine, and Thermofoil finishes, and can even choose from some of the options within our portfolio, i.e. soft-close functionality.

Our expansive product collection spans from the modern tastes of the Millennials to the discerning expectations of the Baby Boomers.

Please feel free to contact us at design@mwccabinetry.com to discuss the specifics of your projects.

- **Styling ranges from Contemporary, Modern, Transitional, and Traditional – we also possess the ability to offer Cottage & Coastal designs**
- **Over 1,200 door / finish combinations** (Stains, Paints, Thermofused Melamine, and Thermofoils)
- **Framed or frameless construction** (any door style)
- **Standard or full overlay doors and drawer fronts** (any door style)
- **Combination cabinets and integrated fillers are often utilized, effectively eliminating the unsightly vertical lines**
- **Special requests considered**
- **NAF and No-VOC jobs are welcomed**

Milano

Solid & Veneer Woods

Master WoodCraft Cabinetry's Milano Wide Shaker door style embodies the old world traditional elegance of high-quality furniture. Sleek lines and quality finishes further enhance the simple and clean design. Master WoodCraft Cabinetry products are certified by the Kitchen Cabinet Manufacturers Association.

ANSI/KCMA A161.1

Master WoodCraft Cabinetry is part of the Kitchen Cabinet Manufacturers Association (KCMA) and the National Kitchen and Bath Association (NKBA). Master WoodCraft Cabinetry carries the ANSI/KCMA A161.1 quality assurance certification.

NOTICE: For aesthetic considerations the furniture and cabinet industries have made veneer on composite panel substrate the standard method of construction for raised panel-in-frame doors in some wood species. Within the Master WoodCraft Cabinetry product line, those species include Poplar, NAH, beech and maple.

NOTE: Due to printing limitations, color pictures cannot be guaranteed to exactly match the actual cabinet material.
